| Asphalt Paving | DI/PVC | Castings | Temp Conveyance / Bypass |
| Railing | Gates | Sandfill / Pipe Abandonment | Televising / Hydro-Vac |

***Submit Quotes To:*** estimating@meyerci.com

**Work consists of:**

The City of St Paul, Mn proposes reconstruction/installation of sanitary tunnel shafts to the existing line at the Milton Street and Goodrich Avenue intersection and replacing 36 linear feet of the sanitary sewer line near 294 Burgess Street in Saint Paul, Minnesota. Planned repairs include constructing new shafts over the existing sanitary sewer lines for Milton/Goodrich (creating additional access points) to clean the sewer lines out for maintenance, and when the sewer lines back up and/or reconstruct existing shafts to improve safety on the existing access points. The existing sanitary sewer line on Burgess Street will be replaced/repaired and recoupled to keep the existing profile.

**Goals = 25% SUBP – CERT certified - S/W/MBEs (St Paul City Standard)**

VOP helps local small, small businesses participate on City contracts. The Saint Paul Administrative Code (chapter 84) governs VOP. VOP applies on contracts with a total project cost over $50,000. A small business set-aside program does exist for contracts under $50,000, in certain circumstances. VOP strives to award purchases of goods, services, and construction to eligible local businesses. The Central (CERT) Certification Program certifies eligible businesses. Generally, there is a goal to award at least 25% of opportunities to certified businesses. Central CERT Directory - Access the CERT certified vendor list on https://cert.smwbe.com/ See "Central CERT Directory" button in the "Vendor Certification" section of the left column. **Prevailing wages apply**
